

# Remote MDS Program

Get an expert, remote MDS coordinator to help improve reimbursement

*The remote program really expands our access to talent, and Polaris is great at finding us candidates who know the job and also fit our requirements.”*

**Peggy Connorton**, Associate Vice President of Healthcare Regulation, Compliance, and Quality at Covenant Living

Having a dedicated MDS coordinator is vital to your organization's financial health. However, communities are struggling to fill open MDSC positions, and onsite coordinators are often asked to perform duties outside of their job description. Both gaps can result in late or inaccurate MDS assessment submissions, affecting the community's financial health.

Using MatrixCare partner Polaris Group's Remote MDS Program, you can skip the hassle of finding, training and retaining an MDS coordinator, while knowing your assessments will get the full attention they need.

## Why use the Remote MDS Program

- > Our dedicated and fully remote MDS experts are immediately ready to submit your MDS assessments accurately and on time – improving your clinical compliance and financial health.
- > Our MDS coordinators are specialized professionals with an average of 15 years of experience in Medicare, PDPM and best practices to help you optimize reimbursement and ensure compliance.
- > Your remote MDS coordinator is part of Polaris Group's broader center of MDS excellence. Their assessments are regularly audited, and they receive MDS briefings and training to keep your community ahead of the regulatory curve.
- > The remote program gives you access to a larger pool of potential MDS coordinators, so you can find the right fit for your organization—proficient in your EHR and licensed in your state (if non-compact).
- > Your dedicated MDS coordinator is an extension of your team, ready to improve processes, train less experienced staff and set the stage for long-term success.

## The easy way to find an expert MDS coordinator

Get the support your organization needs with a remote MDS coordinator. Our expert MDSCs work as an extension of your team, collaborating and communicating to help reduce backlogs, ensure clinical compliance and optimize reimbursement.
